

Product ref: TWD2

Traditional Hardwood Framed Dining Table - Rectangular

From: £141

Quantity	Price
1 - 9	£143
10 -	£141

Description

A **traditional wooden table**, that can suit a variety of situations. This **solid beech**-framed **UK-made** table is manufactured to the highest standards in a factory with many years experience. The beech veneer top is neatly finished, with polished edge and hard-wearing veneer top. Like many of our made to order items, this product can be tailored to suit in terms of **stain finish**, size, top finish and even final design. The latter lends itself to situations where a unique and detailed look is demanded. For example, we have supplied magnificent **Communion tables** for **churches**, based upon this original design. 1200mm x 700mm. Other top sizes are available.

If rubber feet are required to silence any movement or protect a polished floor, these can be specified. Alpha Furniture can also quote for this table made in **oak** or ash, with solid or veneer top available again. We can have the table stained to suit any wood that exists in the proposed new setting, if we are provided with a sample piece.

We cannot offer a sample of this table, as they are made to order, and difficult to transport. Lead-time, as with most of our products, is 5 weeks from the date of order, with longer lead-in available and occasionally shorter lead-in available also.
