400 -	£64.75

Description

This chair is becoming a very popular **wooden, upholstered church chair** and for many reasons. It follows a **traditional design**, but forms a **continuous seat** when lined up in rows. This retains the capacity flexibility of pews and some of the look. The chair features a kneeler/**book rack** under and **prayer rail** on top as standard. It is normally finished in **solid beech**. This chair is also available in **Ash** and **Oak frame** options. For Oak, please select the appropriate option for the menu on the right. For Ash, please call the office to speak to a member of the sales team. The frame can also be stained to suit other wooden items or features. Reflecting the varied situations the chair is sold into, it comes with many choices of book storage, communion cup fitment, linking, arms and fabric options. Chairs can be linked in curves or in straight rows. These chairs are entirely **UK-made**, in a factory with many years experience and come with our notably long **6 year guarantee**. PVC feet can be specified to protect polished floors. As these are made to order items, there are several modifications that can be made (such as a full back, or wider frame), in order to tailor the chair to your specific needs – just call to enquire. **Durability** and **comfort** are the main driving forces behind the design and manufacture of these traditionally-styled **comfortable, church chairs**. Lead-time is 5 weeks from the date of order. A minimum quantity applies for the stain protection option. **NB: We make the armchair version of this chair 1" wider as standard.** Dimensions Width: 480mm Depth: 580mm Height: 820mm Seat height: 450mm Weight: 8.8kg
