400 -	£135

### Description

The elegant and **contemporary Gloucester** chair is a new addition to Alpha's range of quality **wire-framed** chairs. If high levels of comfort with incredible **stackability** are a seemingly unattainable goal – look no further. The **skid-base GLB** comes with oak laminate seat and back, allowing all kinds of **postures** to be accommodated, including those of **musicians, diners, worshippers, pupils** and more. It can be stained to other colours if desired. The frame is **chrome plated** for excellent scratch resistance. The wooden/wire frame nature of this chair provides the aesthetically pleasing look of a wooden chair, with the added practicality of exceptional stacking. Wooden arms are available, and do not compromise **stackability**. Welded links are available for regular linking (minimum quantity applies) or clip-on links for occasional use. Floor glides are included as standard. For book storage, an optional side book box is available to hold a book of up to 60mm thickness (must be ordered with welded links). This contemporary **stacking** chair comes with a 10 year **guarantee, stacks 40 high** on half a square metre (on the optional **dolley**) and represents one of the highest **quality** items we sell. It is available for trial as a sample. Lead-time is typically 6 weeks from the date of order.
