101 - 200	£22.5
201 - 399	£21.5
400 -	£20.95

Description

The LF1 DLL is among our most popular **folding chairs**. Its great shape offers comfort, whilst the absent padding offers great storage efficiency, low cost and a wipe-clean finish. The design incorporates a strong grey frame, welded link and tough, **polypropylene** seat and back. Choose from dark grey, burgundy or slate blue shell colours.

There is a choice of two **hanging trolleys**. Up to 204 chairs can be hung on the largest trolley. The popular **flat trolley** will take 40 chairs lying flat.

Folding chairs are great for the situations where **storage space** is critical, and where the chairs spend much of their life stowed out of use. The LF1 DLL will store efficiently, and will stand up to the rigors of a multi-use environment. Samples are available for free trial. Lead-time is typically 1-2 weeks.

Width: 445mm
