1 - 49	£96
50 - 99	£94
100 - 199	£92
200 -	£90

Description

The elegant and contemporary Durham chair is fast becoming a leading alternative when one is demanding a quality wire-framed chair. If high levels of comfort with incredible stackability are a seemingly unattainable goal – look no further. The skid-base DRP comes with tough polypropylene seat and back in 3 colours. The back contours both horizontally and vertically, allowing all kinds of postures to be accommodated, including those of musicians, diners, worshippers, pupils and more. It comes in several different shell colours. The frame is chrome plated for excellent scratch resistance. The wipe-clean nature of this chair makes it popular in areas that include food and drink. A wooden version is also available. A clip-link is available to connect chairs together for an audience style layout and is very inexpensive, while floor glides are supplied as standard with bayonets into the frame to keep them in place. This contemporary stacking chair comes with a 5 year guarantee, stacks 25 high on half a square metre (on the optional dolley) and represents one of the highest quality items we sell. It is available for trial as a sample. Lead-time is typically 6 weeks from the date of order.
