Description

This chair is a great alternative when seeking an all-wood, traditional stacking church chair and for many reasons. It follows a traditional design, but offers optional book storage and a surprising level of comfort. It is normally finished in solid beech, though ash or oak can be specified. The chair can also be stained to suit other wooden items or features. Reflecting the varied demands of the market, it comes with options for communion cup fitment, linking, arms, Chairs can be linked in curves or in straight rows. Armchairs can also be stacked. We have a padded seat version also. (The E4 SU). These chairs are double mortise and tenon jointed and come with our notably long 6 year guarantee. PVC/felt feet can be specified to protect polished floors. As these are made to order items, there are several modifications that can be made (such as slatted solid beech seat), in order to tailor the chair to your specific needs – just call to enquire. Durability and aesthetics are the main driving forces behind the design and manufacture of these traditionally-styled all wood, stacking church chairs. Lead-time is 5 weeks from the date of order. Please note that when ordering the armchair version that links are not available and should not be selected.
