

Product ref: ENDTR

Gopak Enviro Dining Tables - Rectangular

From: £200

Quantity	Price
-	£0

Description

Gopak Enviro tables are ideal as a lightweight and environmentally friendly option for multiple applications. Enviro Dining Tables are 40% lighter than standard fixed leg tables. By removing welding from the manufacturing process entirely, the construction of these tables is instantly more environmentally friendly. This creates a table that is lightweight, yet strong and robust. The Enviro range now comes with a plywood effect edging, to compliment all table top colours. Conforms to BS EN1729 Parts 1&2 for use in schools. Simple assembly with Allen key required.
