Description

The POP! stacking chair features a sleek contemporary design, and is manufactured using glass fibre reinforced polypropylene for a strong, sturdy and ultimately long-lasting chair, with a life expectancy of 20+ years. Extremely lightweight and easy to handle with a hand hold in the seat, the POP! chair represents an ideal solution for spaces with flexible layouts or where chairs are moved frequently, with a stacking height of up to 10 high. The smooth polypropylene finish makes it incredibly easy to clean, and keep clean, and so can also be used for outdoor seating and dining.

 50% recycled polypropylene, 100% recyclable Conforms to EN1729:2006 Parts 1&2. UK Made
10 Year Guarantee for structural defects!
