Description

This sturdy and durable stacking armchair also flatters with its weight, at 4.5kg. Despite the light weight, the aluminium frame is more than capable of standing up to life in high traffic areas, making it ideal for frequent or permanent outdoor use. The plastic wicker effect seat and back also ensure maintenance is kept to a minimum. For versatile or temporary areas, the chair can stack to 6 high for efficient stowage when not required. This product is usually available for stock for delivery within 5-10 working days.
