Gopak Ultralight Rectangular Staging Package - 6sqm

From: £1975

Quantity	Price
-	£0

Description

Ultralight is a modular staging system constructed from aluminium with a lightweight core. This package includes everything you need to assemble a stage and create a 3m x 2m area for small performances and includes a step which you can position wherever you please.

USPACK6 Includes:

- 3 x 2m x 1m decks and risers with risers in a height of 400mm
- 1 x 1m x 0.52m deck and riser 200mm high (to create the step)
- As with all orders for staging packages, a 5mm Allen key is included to enable you to secure the stage decks and risers together and clamps to secure the stage step to the stage.

Product Details

- Stage deck finishes include corded carpet, black vinyl, or for high impact areas, a heavy duty black vinyl.
- Simple assembly with Allen key
- Formed with lightweight but extremely durable components
- Clever concertina folding design
- Use in conjunction with other staging components to create multiple configurations
- Stage Deck weights 4.5kg and 17kg
- Stage Riser weight 1.5kg to 7kg each
- Can be handled by one person although a two person lift is recommended for large decks
- Tested to 1000kg m² even load distribution
- Point load testing to 180kg
- All Aluminium components are 100% recyclable
- GS Approved construction
- 5 Year Guarantee
