

Product ref: GOPUSA

Gopak Ultralight Staging Package A - 8sqm

From: £2855

Quantity	Price
-	£0

Description

Ultralight is a modular staging system constructed from aluminium with a lightweight core. This package includes everything you need to assemble a stage and create an area of 8m² or 4m x 2m.

GOPUSA Includes:

- 4 x 2m x 1m decks and risers with risers in a height of 400mm
- 1 x 1m x 0.52m deck and riser in a height of 200mm (to create a step to be attached to the main stage using a pair of riser clamps)
- As with all orders for staging packages, a 5mm Allen key is included to enable you to secure the stage decks and risers together.

Product Details

- The stage deck is available in corded carpet, black vinyl, or for high impact areas a heavy duty black vinyl.
- Simple assembly with Allen key
- Formed with lightweight but extremely durable components
- Clever concertina folding design
- Use in conjunction with other staging components to create multiple configurations
- Stage Deck weights 4.5kg and 12.75kg
- Stage Riser weight 1.5kg to 7kg each
- Can be handled by one person although a two person lift is recommended
- Tested to 1000kg m² even load distribution
- Point load testing to 180kg
- GS Approved construction
- 5 Year Guarantee
