Description

This comfortable classic styled wing chair is among our most popular chairs given its design and affordability. The rear leg is one continuous piece from the floor to the top of the back, adding to the overall strength and durability of the chair. Where rear legs are screwed on, a weak point is created right where the chair needs the most strength. The hardwood beech frame features glued screwed and doweled joints for superior strength and durability, and is finished with Hygienilac wood lacquer to kill bacteria.

This stock version of the PRESTON chair is usually available for delivery within 2 weeks, upholstered in Expressions Colour Heaven Vinyl with stain protection (Delft).

The contrast piping in Gun Smoke grey allows the outline of the chair to stand out more visibly for residents with fading eye sight. For alternative finishes, please see the made-to-order version of the chair here: [BL2W](#)

5 year guarantee on frame and springs!
