ZERBA Over-Arm Space Saver Table

From: £195

Quantity	Price
1 - 4	£212
5 - 9	£203
10 -	£195

Description

The Zerba side table fits nicely over the arm of a lounge armchair, and has many benefits. First of all it is a big space saver, not requiring 40cm or more space as a traditional coffee table would do. Secondly, it provides a flat table top service that is more accessible to the resident by removing the need to lean over the arm of the chair. Spilt cups of tea can become a thing of the past with a better view for the resident, while the sled base to the table reduces friction when sliding the table out of the way. Available in a range of wood effect finishes, the table top can match in seamlessly with any armchair. Meanwhile cabinetry, both bespoke and otherwise, is available in the same finishes. **Dimensions:** Width: 406mm Depth: 256mm Height: 580mm Top finish: MFC Frame: Powder coated mild steel
