Description

The Colorado Armchair offers a modern take on traditional 'wings', with a less intrusive design to avoid restricting views. The modern styling also protects against a dated 'institutional' feel, more in keeping with a domestic lounge setting. The sprung back also offers additional long term comfort, allowing the chair to be a comfortable contender both in lounges and tv/cinema rooms. A matching 2-seater settee is also available (BL5S). Further design options, including the use of contrast fabrics are also available - please [contact the office for more details](#) Wood finishes are plentiful, and designed to tie in with auxiliary furniture such as coffee tables. The use of beech hardwood throughout the chair frame ensure a strong durable piece of furniture, built to withstand the rigours of a residential healthcare setting.
