Reupholstering Service

From: £

Quantity	Price
-	£0

Description

We offer an exceptional reupholstery service for almost any church chair. A lot of people come to us now with chairs that have remained solid for 20-25 years, but with fabric that is beginning to show signs of wear. Often, replacing the seat and back pads is a very cost effective method of giving your chairs a new lease of life. In most instances, we provide you with complete new pads (new boards, foam and fabric). Reupholstery is of course an environmentally friendly way to renew seating, and accordingly many environmentally friendly fabrics are also available, including fabrics which are 30-100% constituted from quickly renewable sources such as wool and hemp, or fully recycled post consumer polyester and polypropylene.

We can also quote you for reupholstery - either with supply of the new pads only (for you to fit - in most cases this is a simple matter of 4 screws per pad) or to have your chairs collected in batches and have the new seats and backs fitted by the factory and returned to you within 2-3 weeks.

We always start with a picture of your old chairs, so please don't hesitate to call us on 01494 670 600 or email admin@alpha-furniture.co.uk

The service is available on almost all Alpha products.
